What does the Walluta offer me?

Everything you need for a secure, easy-to-understand and profitable use of your digital assets (cryptos) and everything from a single source – on one app.

No monthly fees

No fees for deposits

No reception fees

Only comparatively low fees for:

Trading

Change

Forward

(if applicable, gas fees for the networks)

All fees explained transparently and simply - under "More" and "Fees"

Services in the Walluta

Free, safe and easy custody -- **Wallet service**

Exchanging Crypto to Euro and Euro to Crypto -- **Exchange**

Crypto – Trading on your own exclusive crypto exchange – **Crypto Trading**

Buying and selling all common crypto assets

Staking – earn passively with your own values

Lending – borrowing one's own assets if necessary (possible at short notice)

Deposits and withdrawals in € to your own bank account

Walluta Mastercard (possible at short notice)

The Walluta is the central platform

All services are stored, multiplied and used on one page

and networked with each other – linked

No one has to leave the site to work with their values

This better usability allows the community to help in a more targeted way

More user growth through participation (commissions) for everyone

More users = more trading volume also for the Coins = more value?

Walluta should and can be developed into a value booster

Everyone is now invited to do even more activity (encouraged)
